Standard codes for all rental companies

New Elite Categories

Greater selection of car types

New Passenger Capacity codes for Booking Vans, SUVs and Crossover vehicles ensure customer satisfaction

Worldspan in association with ACRISS, the Association of Car Rental Industry Systems Standards, has enhanced the capacity details for specialty vehicles, allowing you greater control to reserve exactly what your customer has requested. The table below offers a selection of specific two letter codes allowing you to fulfill booking requests as closely as possible for SUVs, Vans and Crossover vehicles. Utilize these two letter codes from the table as the first two letters in your booking entry followed by one letter from the Transmission/Drive category and one letter from the Fuel/Aircon category on the reverse side. Alternately, a 'wild card' may be used to identify transmission and fuel options.

Passenger Van Coding	SUV Coding	Crossover Coding
IV = 6+ Seats	EF = 2-4 Seats	EG = 2-4 Seats
JV = Elite 6+ Seats	HF = Elite 2-4 Seats	HG = Elite < 4 Seats
