

ScriptPro SecuRate Air Fares Script

Overview

Introduction This document contains an overview of the Worldspan SecuRate Air Standard Script available for users on Worldspan Go! Res.

File name Z4SECURE.CSL

Need Help? Click on the link below to submit a question or issue to the Worldspan Help Desk: <http://www.worldspan.com>, then select the Help Desk Support link from the menu on the left.

Overview This script integrates published fares display with SecuRate Air fares display. Up to five Agreement Numbers, and up to five airlines can be used to display fares. Airlines are optional, but at least one Agreement Number must be used.

Fare Display Options compatible with both published and SecuRate Air fares include:

- Travel date
- Fare type (up to five total with passenger types)
- Passenger type (up to five total with fare types)
- Class of service (up to three)

The option to check rules for published fares includes all options and rules categories. The option to check rules for SecuRate Air allows for scrolling through the rules display.

Operating Instructions

Script Conventions

- Mandatory fields are indicated with burgundy text.
 - A black arrow pointing down indicates a drop down list is available for applicable choices for the input box, or the ability to scroll for more information.
 - Some dialog boxes may contain input fields with conditions that would disable other fields and/or buttons (e.g., selecting a Move option will disable the ability to select specific Rule Categories to view, or leaving a field blank disables other fields pertaining only to that blank field).
 - In a list where the choices are Yes or No, leaving the field blank is also No.
 - Use the <Tab> key to move in order to each input field. Use <Shift><Tab> to move in reverse order. Or use the mouse to click on the needed input field.
 - Some fields contain a “hot key.” This is an underlined letter. Pressing the <Alt> key and the underlined letter together will move the cursor directly to that input box.
 - The <Enter> key may be used in place of the OK button.
-

Need to Know

Previously, Worldspan Res had provided the capability to pause and resume ScriptPro scripts using the keystroke combinations <Ctrl>W and <Ctrl>R. Since Go! Res is on the Web, the right side of the window (Index/Go! Res scripts) takes on the Windows keystroke and local macro defaults. The left side (terminal emulator/Go! Res) has retained some of the Worldspan keystroke defaults. If the focus is in the terminal emulator/Res side, <Ctrl>W pauses a ScriptPro script and <Ctrl>R resumes a ScriptPro script. HOWEVER, when the focus is the right side/Go! Script, the <Ctrl>R does nothing or launches a macro and the <Ctrl>W shuts down the application. It is important to check the focus prior to using keystroke combinations. Simply click on the right or left to move the focus.

Operating Instructions, continued

Access

From Worldspan Go! Res:

- Access the script from the Book or PNR Tab in the Script Index
- Select SecuRate Air Fares to launch the script,

Or:

- Access the ScriptPro menu in Res by pressing <Ctrl>S,
 - Type z4secure.csl or scroll and highlight,
 - <Enter>
-

Fares Information

The following dialog box is displayed first:

SecuRate Air and Published Fares Information [X]

Departure City Code: SLC
Arrival City Code: CUG

Agreement Number(s): D4HTEST
(Enter at least one)

Airline: DL UA NW

Are more options needed? No [v]

OK Exit

SECU01B

Dialog Field	Explanation
Departure City	Mandatory, a valid three-character city code must be entered.
Arrival City	Mandatory, a valid three-character city code must be entered.
Agreement Number(s)	Mandatory, at least one agreement number must be entered here. The agency's SID comprises the first three characters of an agreement number.
Airlines(s)	Optional, a valid two-character airline code must be entered.
Options	Default is No. If Yes is selected, another dialog box displays for entry of the desired options.

Fare Display Options

When Yes is selected for more options, the following dialog box displays:

Dialog Option	Script Action
Travel Date	Correct format is DDMMM (e.g., 01JAN or 1JAN).
Fare or Passenger Types	Allows for up to five fare type codes and/or passenger type codes. The codes may be either two or three characters long.
Class of Service	Up to three codes may be entered, using one or two characters.
Display Fares in Euros	Select Yes to display the fare amounts in Euros. Select No or leave blank for fare amounts in local currency.
Fare Types	Displays a list of all fare types and their codes. Entry is not allowed here. This is a reference field only.
PSGR Types	Displays a list of all passenger types and their codes. This is a reference field only, and no entry is allowed here.

Integrated Fares Display

The response generated from the previous dialog boxes is two separate fares displays. The published fares are displayed in Res 1 and the SecuRate Air fares are displayed in Res 2. The following dialog box combines the fares from those screens into one fares display, from low to high. Up to sixteen fares may be displayed at one time.

LN	A/L	FARE	RT	FARE	TRAVEL DATES	TKT DTE	RTG	BK	AGREEMENT	*SecuRate Air Fares
	CODE	OW	USD	EFF	DISC	FST/LST	NBR	CD	NUMBER*	
1	UA	WE21NQ		348.00	28JUL00					
2	DL	LE21NR		348.00	28JUL00					
3	NW	HE21QNR		348.00	31JUL00

Operating Instructions, Continued

Script Flow

When fields are left blank and OK or <Enter> is pressed, the following message box displays:

If Yes is selected, the integrated fares dialog box redisplay, allowing the agent to look at rules for another fare that is being displayed in that dialog box. If No is selected, the following continuation message is displayed:

If Yes is selected, the script starts over. All dialog boxes are cleared to allow for new entries and responses. If No is selected, the script terminates and the reservations screens are cleared. The script displays this continuation message prior to termination.

Operating Instructions, Continued

Errors

The following Error message is displayed when a wrong city code is entered.

Quit

To quit or stop the script, select the Exit Button.
